refer to chapter 7. No further action is necessary.

## Protective and hygiene measures

The usual precautionary measures are to be adhered to when handling chemicals.

# Respiratory protection

Respiratory protection not required.

### Hand protection

Hand protection: not required.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

The precise time of rupture can be found out from the manufacturer of the protective gloves and must be observed.

Suitable material: NR (Natural rubber (Caoutchouc), Natural latex).

### Eye protection

Eye protection: not applicable.

## Skin protection

Body protection: not applicable.
