**1. Identification of the substance or preparation****Substance group relevant properties:****Use of the substance / preparation:**

Covering the maxillary papillae when finishing complete dentures - thus subsequent dents are avoided.

**Recommended restrictions of use:**

No further relevant information available.

**2. Hazard pictograms****Classification / labelling:**

Void No risks worthy of mention.

**3. Composition/information on ingredients****chemical characterization (preparation):**

No further data.

**Ingredient (name):**

- 7440-31-5 Tin, Powder

**4. Appearance**

**State of matter:** solid  
**Paint:** metallic  
**Odour:** odourless  
**dimensions:** 0,10/ 0,20/ 0,25/ 0,30/ mm  
0,40/ 0,50  
**Type of packing:** 250 g Roll

**Physical and chemical properties**

**Designation:** \_\_\_\_\_ **Values:** \_\_\_\_\_

No further information required.

**5. Exposure controls****Occupational exposure controls:**

To date, no national critical limit values exist.

**Environmental exposure controls:**

If used and handled pertinently ecological problems are not to expect.
